

# Advanced Health Care Directives: Prevention Education and Research

This article is a must read BEFORE you sign an Advanced Health Care Directive! The history of advanced directives and 10 research articles as a literature review are presented to educate the reader. The purpose of providing Advanced Directive information is to assist the reader in future decisions by examining current policy. Current Advanced Directives are statewide and policies change from State to State. PEaR Health Research articles present research to educate the reader. End-of-life choices differ for each person depending on each circumstance. It is unfortunate when an Advanced Health Care Directive is completed and signed due to a chronic condition and utilized for other diagnoses. Be aware, educated and informed when making choices for end-of-life care. A simple lack of a check mark in one of the boxes could save your life. This author recommends IV fluids for all diagnoses.
