

How to Survive and Thrive on Food Stamps: How to plan meals, buy food and eat well on a limited budget!

This is not your typical How To book. It does not tell you how to sign up for the food stamp program in this country. It is a guide for anyone who has been forced to tighten their belt or had their food budget reduced significantly. It is a guide on how to build a menu plan and shop for food in a straight forward, easy to understand manner that saves time and money while putting some wonderful food on the table.
