

## Boris The Warmblood - My Side Of The Fence

My Side of the Fence is a humorous and lighthearted look at life with humans from a horse's perspective. Boris, is a horse with a very high opinion of himself and his ability to be the very best at every equestrian activity he participates in. Join Boris and his human Cynthia as they compete with mixed results at dressage competitions, three day events, breed shows and many other equestrian activities.

Discover Boris view of visits from the vet and farrier, as well as a breed show judge who criticized his conformation. Find out what he thinks of trail riding and a cattle drive in the outback, not to mention a session in a round yard with a natural horsemanship trainer. Read how Boris interacts with a snobby Siamese cat, a Collie dog, three pony friends who live next door, and a Warmblood mare whom he loses his heart to. Boris doesn't like to share Cynthia or his stable complex with anyone, but when Cynthia opens a riding school how will he cope with the many changes to his life? He has to deal with the many strange horses and ponies now living in what was his stable complex, and he's terrified of catching parasites or some unmentionable disease from one of them. Boris is at an all time low when Chloe enters his life and changes things forever. For the very first time Boris starts thinking of someone other than himself, and Chloe soon becomes the most important human in his life. Go with Boris and Chloe when they compete at their very first show, dressage competition and ODE where Boris experiences new levels of fear and worry when he tries to keep a daring Chloe safe from harm as they negotiate the cross country course. Boris is feeling all is well until he learns Chloe is going away to university to become a vet and his life is again turned upside down. How will he cope without Chloe?
