

THE BROKER BOYS, from ?The co-founder of the infamous northern UK broker, Ward Evans. In his compelling and controversial new book, Michael Kenney gives his account of his firms collapse. The Broker Boys documents the firms dramatic downfall, intermingled with stories of partying with celebrities, fine dining, and splurging cash on yachts and cars. The company was one of the fastest-growing businesses in the UK, employing more than 200 people in just seven years. On the surface this was a business riding high and enjoying success. But were millions actually embezzled? Was there criminal intent? Or was the downfall just an old-fashioned cock up. The Broker Boys is about family life, drunken bohemia, laughter, love, betrayal, and a shocking turn of events that will leave the reader avidly turning the pages. As one man loses everything; he gains his son, humility and a new beginning. Michael Kenneys, The Broker Boys, is truly a business story of our time.
