

David, Fish & Penguins...

David lives in a world surrounded by incredible animals who are with him from the moment he gets up until he goes to sleep when he eats his breakfast, when he plays, when he does his homework, and even when he takes a bath. David has his very own magical world in which everyday activities are full of adventure. The book brims with color and imagination and, through the fun that David has with his daily routine, shows children that entertainment can be found everywhere, even in the most unexpected places.
