

Flying to the Sun: A History of Britains Holiday Airlines

Flying to the Sun: A History of Britains Holiday Airlines encompasses the development of Britains holiday charter airlines, from their humble beginnings flying pioneering holidaymakers to campsites in Corsica in war-surplus Dakota aircraft, to todays flights to exotic spots across the globe in wide-bodied Airbuses. Along the way, nostalgic names such as Clarksons Hoildays and Dan-Air are encountered, and anecdotes from early package-tour holidaymakers and former airline staff provide an insight into a part of our social history.
