

Estrellas Quinceanera

Estrella Alvarez is turning fifteen, and she's not happy about it. For as long as she can remember, her mother has been planning an elaborate quinceanera, complete with a mariachi band, cheesy decorations, and a hideous dress. Estrella is so over it. She'd much rather have an understated dinner party at a posh restaurant downtown -- that way, she can invite her two best friends from private school, who have no idea Estrella lives in the barrio. Even though Estrella tries to keep her home life a secret from her school friends, things get even more complicated when she falls for Speedy, a cholo whom her new friends -- and her parents -- would definitely disapprove of. Caught between her family's wishes and the allure of her sophisticated friends, Estrella is forced to make some tough choices. This funny, touching book follows one girl's struggle to figure out who she really wants to be.
