

## The Fourth Dimension : Traveling the Realms of Discovery / Beyond the Rooms of AA

Helplessness is the welcome mat for Mercy. Explore a world beyond the doors of Alcoholics Anonymous in this compelling account of a recovered alcoholic and his journey from the clutches of alcoholism to the world of sobriety and beyond. These writings are based on true accounts of the author. Experience his contact with an unseen Intelligence, what AA terms a Higher Power that guides him as he makes his way through the rooms of AA to the narrow path of a dimensionless wonder that lies beyond them, incorporating the principles of the profound work, A Course in Miracles. The Fourth Dimension comes in a time when man seeks to rise above his present level of spiritual development into a greater understanding of who and what he is. This work is written not only for those who are familiar with the Twelve Steps of Alcoholics Anonymous but for anyone who is seeking for deeper insights into their purpose and function on the planet. The Fourth Dimension is the stepping stone to a new world for the true seeker. It is the gate to the path of the mystic, the passageway to a journey into the spirit world of the Self. Travel through these pages and uncover the ways that awaken inner potential many seek but few have yet to find. Ascent - Revelations take no time. They honor only the present where mercy calls to attention the need for healing. Revelation sees a need must be met and addresses it promptly, since it is not the will of Power to delay healing by honoring weakness and suffering. Care - The exposing of the ego will bring forth quickly the hypocrisy of the egos care. One sees that the egos idea of care is a veil of scorn offered to another to supplement its own deranged ideas as to what will make it fulfilled. Within the egos domain, care is sorrow; care is worry; care is concern. It is a troubled state of mind. Knowledge - Intelligence stimulates the mind in the

reception of Knowledge through the willingness to learn or express what the mind is in truth. One must read from the mind of the author, for meaning is represented to the mind THROUGH the words, and not AS the words. The Fourth Dimension an eternal message given to the world. The time for its revelations is now. If this work has made its way into your hands, Other Forces have made possible what marks a new beginning for you.
