**Dynamic grey target decision making method with three-parameter** A new method about dynamic decision problems with three-parameter grey numbers from other angle of view is presented, not only aggregates the attribute **Grey situation group decision-making method based on** - NCBI In this paper we study a decision making problem based on grey incidence analysis and case-based reasoning for grey intuitionistic fuzzy information, in wh. **Grey intuitionistic fuzzy decision making method based on grey** The grey multiple attribute decision-making problem with preference information on alternatives is discussed in this paper, in which the attribute values a. **Grey Situation Group Decision-Making Method Based on** - Hindawi In solving the decision-making problems of complex multi-index evaluating scheme, the traditional way is to adopt fuzzy unified evaluating method. But the. **Minimum deviation method based preference information on** The hybrid grey attribute decision-making problem that the attribute weights are partially known is discussed, in which the attribute values are interval g. **A New Multi-attribute Decision-Making Method with Three** ScientificWorldJournal. 20142014:703597. doi: 10.1155/2014/703597. Epub 2014 Aug 12. Grey situation group decision-making method based on prospect **Evaluation Method of Software Development Risk Based on Grey** In this paper, decision-making based on the interval linguistic judgment matrix which may contain extreme programs or extreme decision-makers was studied. **The method of grey related analysis to multiple attribute decision** The problem of grey multi-attribute group decision making under risk, in which the Based on the ideal matrix, relative subordinate degree method is presented. **The Method of Grey Related Analysis to Multiple Attribute Decision** A Method for Fuzzy Soft Sets in Decision Making Based on Grey In order to grasp the motion law of the system, the grey theory can find the relation among This paper presents a new decision-making method based on Grey **Grey Situation Group Decision-Making Method Based** - NCBI - NIH Based on grey system

theory, the grey attribute decision-making problem is discussed considering attribute values are interval grey numbers and the attrib. **Grey fuzzy decision-making method of complex multi-index scheme** The purpose of this paper is to attempt to propose a method based on evidential reasoning for hybrid grey attribute decision-making problems where the **Grey multiple attribute decision making method based on the** This paper puts forward a grey situation group decision-making method on the basis of prospect theory, in view of the grey situation group decision-making **Grey incidence decision-making method of grey hesitant fuzzy sets** Multi-elements Decision-making is one of the important methods which simulate reality problems in both social and economic fields. By using grey decision m. **A grey-based decision-making approach to the supplier selection** The uncertain degrees of different indices are determined by using the grey incidence analysis. Then, the mass functions of different alternatives in different **Images for Grey decision making method** May 25, 2013 As for the grey risk decision-making problems with uncertain criteria weights, the two-base-point method is proposed by applying the thought of **Research on grey risk decision-making method based on priority** May 19, 2014 A method based on grey relational analysis and D-S theory of evidence is proposed for fuzzy soft sets in decision making. Firstly, grey relational **Grey situation group decision-making method based on - NCBI** Supplier selection is a multiple-attribute decision-making (MADM) problem. Since the decision makers (DMs) such as preferences on alternatives or on the **Hybrid grey multiple attribute decision-making method with partial** The method of grey multiple criteria decision making under risk based on priority index is proposed. By using the possibility, the priority index matrix and **Multi-elements Decision-making method based on grey decision making** is performed based on the relative approach degree of grey TOPSIS, the In this paper, we propose a generalized fuzzy grey decision making method **Hybrid grey multiple attribute decision-making method with partial** Which one is really more applicable under uncertain situations? fuzzy ? type-2 fuzzy? Intuitionistic fuzzy? or Grey environment for a decision making method? the method of grey related analysis to this problem, using interval fuzzy numbers. KeywordsFuzzy sets, Multiattribute decision making, Grey related analysis, **The Research on Supplier Selection Based on Grey Relation** Aug 24, 2016 Abstract. In consideration of the fuzziness and the uncertainty in decision information, this paper proposes a three-parameter interval grey **Investment Decision-making Method of Real Estate Project Based** Abstract. This paper puts forward a grey situation group decision-making method on the basis of prospect theory, in view of the grey situation group **Super-Mixed Multiple Attribute Group Decision Making Method** Jul 26, 2014 1Corps Financial Development Research Center, Shihezi University, Wujiaqu 831300, China 2Commerce College, Shihezi University, Wujiaqu **Intuitionistic fuzzy decision-making methods based on grey** A **decision-making method based on grey interval linguistic** Firstly, this paper expands hesitant fuzzy into grey hesitant fuzzy sets Secondly, the kernel and grey degree method of grey systems is us.
