

After years of treating people whose lives were in ruins, Dr. Hemant Thakur saw that traditional psychiatry, drug therapies, psychotherapies and current therapeutic techniques were not always effective in creating holistic success. He learned that unless people were given a universal tool which they can apply to all actions, all values and beliefs they would not find the inner joy, happiness, peace and harmony in their lives and the lives of all their fellow humans. In his book, *Universal Religion for the World*, Dr. Thakur proposes using nature's intelligence, wisdom and energy to create successful, happy, peaceful societies all across the globe. These harmoniously created societies would then be able to provide abundance for every human being on Earth. This book will show individuals how to empower themselves at a personal level, at a community level and at the national level. *Universal Religion for the World*, offers a step-by-step process to create peace, harmony and abundance on this earth for all people and provides a blueprint for ending the current violence and wars in the world. This book will show you the way to create peace, harmony and abundance on this earth, states Dr. Hemant Thakur.
