

# HNK Market Timing For Profitable Trading For ATX VIENNA

Now get the powerful formula to calculate an average that works wonders. See the chart in this book to believe this. Multiply your money by mastering this method. The blue line in charts is for close values of the index and the red line is for my own average. You get a buy signal when the blue line intersects the red line from below (breakout) and the opposite for a sell signal (breakdown). The author has been tracking the stock markets since 1993. He has developed several books on his own methods of technical analysis of stock markets. He has written a series of books about his methods. All his books are available worldwide. The current book is a part of the series. Now get the powerful formula to calculate an average that works wonders. See the charts in this book to believe this. Multiply your money by mastering this method. This is an in-depth analysis of ATX Vienna for 1993 to 2013. You can see how the buy signals and the sell signals are generated by using Hemant Kanade Average In Technical Analysis-9. You can also see for yourself how powerful they are and how much profit they can generate for you. This method is also useful for analyzing individual stocks and different indices. More importantly, you get the signals at the right time. The book gives you details of every possible transaction that you could have in this stock market for the given period along with the reasoning for the same. Not just that, you also get the details of the outcomes of these transactions, whether profit or even loss. The author does not want to paint a rosy picture of his methods in front of you. You can cross-examine every transaction in detail so as to believe that the method is really powerful. Time your investment and trading decisions precisely and profitably. The most important aspect of this analysis is that I develop a different method for every index in such a way that it should probably

become profitable for the traders. Wish you profitable investing and profitable trading!
