

## Corporate and Commercial Free Speech: First Amendment Protection of Expression in Business

This valuable book by Rome and Roberts, attorneys and participants in several Supreme Court cases involving commercial and corporate free speech, stands alone as a monographic treatment addressing the topic of the First Amendment and corporate and commercial free speech. It is a thorough, careful treatment of an area of growing importance. One would have to turn to the extensive law review literature on this topic for comparable, if partial, treatment. The book is detailed and sophisticated enough to be of use to legal counsels and academics, but it could be read with profit by upper-division and graduate students.
