

System control matrix theory(Chinese Edition)

Paperback. Pub Date: 2011 08 Pages: 206 in Publisher: Heilongjiang University Press matrix system and control theory of Zhang Xian had five consecutive years for the graduate students of the School of Mathematical Sciences of Heilongjiang University matrix algebra courses. this book is on the basis of their presentations. additions and deletions. rewritten from the book details accurately describes the columns of the matrix space and kernel space. matrix decomposition. and the Standard Form vector norm matrix sequence limit and Matrix series. function matrix calculus. matrix eigenvalue and singular value inequalities. matrix generalized inverse linear matrix inequalities. algebraic Riccati matrix equation and other aspects of content. Strive to achieve discusses rigorous in laymans language. to reflect the theories. ideas and methods of the matrix. In order to facilitate th...
