

## Bats: Children Pictures Book & Fun Facts About Bats

Amazing Bat Facts for Kids! Bats are the only mammals capable of flying while other mammals can only glide on short distances. Their wings appear like human hands. There are almost a thousand species of bats found worldwide and they make up a quarter of all mammal species on earth. These animals exist all over the world and live in different habitats except in the polar regions and extreme deserts. They are usually found in caves, trees and buildings
