

Love, Peace & Light

This book is inspired on a meditation created by Dr. Joseph Michael Levry, founder of Naam Yoga. This simple, beautiful, and powerful meditation was created so that anyone, including children, may use it to heal and elevate all beings in the world. Let all of us share our Love, Peace, and Light out unto the Earth, to the four corners of the planet, in order to raise its vibration and let the true light shine through. We come from Love, and we are nothing other than the manifestation of love. Love is our innate state. Love is our birthright. By working with this meditation, we counteract some of the negative effects that can be around us and it allows us to set in motion positive effects by working with Love, Peace and Light. This book can be read to children 6 month and up as a bedtime story or as an interactive game following the arm movements. It connects children to their innate state of love, peace and light and to share them with others. This meditation is used by thousands every day around the world.
