

Magnetism and Its Effects on the Living System

This book is the result of years of investigations into the laws of magnetism and is the first book ever written explaining how magnetism affects your life and the life of all living systems around you. Biomagnetics is an all-natural science based on the nature of life itself. The scientific community can no longer overlook the fact that when properly applied, a magnets energies can be used to program improved forms of intelligence and offer additional years to the normal life span of the living system. Special information on sex, aging, cancers, tumors, and more. Findings presented in this book are reproducible and factual. Illustrated.
