

Model Agreements for Sustainable Water Management Systems: Model Agreements for Rainwater and Greywater Use Systems

This guide provides basic advice on the use and development of model operation and maintenance agreements for rainwater and greywater use systems together with simple guidance on their incorporation into developments. The book identifies maintenance considerations and provides an outline of ways in which the long-term responsibilities for the maintenance of the rainwater and greywater use systems can be allocated. Provided with the book is a model agreement booklet and a CD containing an electronic file of the model agreement.
