

## How I Saved the World: Amazing Adventures of an Almost Superhero (Adventures of Jed Pepper)

WARNING! DO NOT READ THIS BOOK! YOU MIGHT DIE LAUGHING! Here is a truthful account of the most extraordinary events ever to happen to an ordinary boy. Its a story about how my life was changed forever, and it started the day I met Saki Salter at lunchtime in the school playground. If I knew then what I know now, I would have bought a plane ticket to some faraway place. Somewhere safer, away from the madness and danger. Either that or a crash helmet. Actually it would have to be a crash helmet as I could never afford a plane ticket on my pocket money. Back on that hot summer day I was still blissfully unaware that Sakis parents had been kidnapped. I knew nothing about her being followed by secret agents. It never entered my head that I was soon to be hunted by alien detectives, smelly bodyguards and even gorillas. I was yet to discover that Sakis parents are scientists and had invented something a lot of nasty people (and non-people) wanted to get their hands on. This is the strange but true tale of how Saki and I figured out what was really going on between the National Alien Detective Agency, a mysterious crocodile-woman called Miriam and the M.A.D. Scientist Committee. Its all too complicated to explain here. Thats why I have written a book. I think youll be impressed. If you are, could you write me a reference to the Super Hero Secret Society? Ill send my application when I discover the address. Its only visible to X-ray eyes but Im practicing. A hilarious romp. What an imagination! (Quote from Marjorie Pepper, Jeds mother)
