

Photo Library On Soil Erosion Processes (FAO Land and Water Digital Media Series: CD-Rom)

The trilingual photo library is a complimentary, technically annotated photographic annex to the Guidelines for mapping and measurement of rainfall-induced erosion processes in the Mediterranean coastal areas [United Nations Environment Programme (UNEP), Mediterranean Action Plan and Priority Action Programme], which are also included in this CD-ROM and give guidelines and illustrations for mapping soil erosion processes. La photothèque élaborée en anglais, français et espagnol se présente comme une notice photographique en complément aux Directives pour la cartographie et la mesure des processus d'érosion hydrique dans les zones côtières méditerranéennes (PNUE/PAM/PAP) ; cette publication est également incluse dans le présent CD-ROM et propose des directives et des illustrations graphiques sur la méthodologie de cartographie de l'érosion. La présente fototeca, realizada en español, francés e inglés, es un complemento técnico y fotográfico de las normas y métodos de las Directrices para la cartografía y la medición de los procesos de erosión hídrica en las zonas costeras mediterráneas [Programa de las Naciones Unidas para el Medio Ambiente (PNUMA), Plan de Acción Mediterráneo y el Programa Prioritario de Acción]; la referida publicación también está incluida en este CD-ROM y ofrece, además, directrices y muestras de levantamientos cartográficos de los procesos de erosión. [System requirements: Pentium PC with Windows 95/98/2000/NT/XP; a browser installed (Netscape 4.7 or Internet Explorer 5.0 or later) with JavaScript, cookies and Cascading Style Sheets enabled]
