

Saturday Night at the Dinosaur Stomp (Big Book)

Big Book Edition (15 1/2x 18 5/8)
Doo-bop-a-loo-bop! In this rollicking romp through a prehistoric weekend, dinosaurs frolic and caper the night away. After some initial early evening shuffling shyness, these party animals are ready to get down, doing the Triassic Twist and the Brontosaurus Bump, the Raptor Rap and Jurassic Jump. With all this rhythm and rhyme, its no wonder romance is soon afoot: Tarchia winked at a stegosaur she liked. They danced together, spike to spike. This outrageous book provides a much more appealing theory behind the disappearance of dinosaurs, and hints at the possibility of another Dinosaur Stomp someday in the future. Scott Nashs wonderfully friendly bopping beasts radiate a contagious exuberance with their smiling, simple faces and bright colors and patterns. Carol Diggory Shields couldnt have found a better match for her rocking, rolling, twirling, tromping, scientifically accurate (more or less) dinosaurs. A guaranteed favorite that will have young children gleefully chanting Boomalacka boomalacka! Whack! Whack! WHACK! Big Books help model key reading strategies, promote fluency, and strengthen early phonemic awareness! Cumulative repetition encourages class participation, and the oversize format lets kids connect the words they hear to the words on the page.
