

Horace, George and Ingle are three brothers growing up during a time of relative calm in a land once dominated by great battles. Galray has enjoyed peace and prosperity for many years under the watchfulness of the knights council and the strong leadership of their father the King. The boys didnt know that tonight would be the start of an adventure that would change the course of their lives as they sat down for a game of chess. What starts as a simple storm turns into a race to save the kingdom and solve a mystery that will challenge everything they know. Dragons, myths and betrayal lay ahead as the three brothers are forced to lead and become men.
