

Hi and a very warm welcome to Dinosaurs. Im one of those people who loves to hear about extraordinary facts or trivia about anything. They seem to be one of the few things my memory can actually recall. Im not sure if its to do with the shock or the WoW factor but for some reason my brain seems to store at least some of it for a later date. Ive always been a great believer in that whatever the subject, if a good teacher can inspire you and hold your attention, then youll learn! Now Im not a teacher but the system Ive used in previous publications on Kindle seems to work well, particularly with children. This Dinosaur edition includes a selection of those WoW facts combined with some pretty awesome pictures, if I say so myself! At the end there is a short True or False quiz to check memory recall and to help cement some of the information included in the book. Dont worry though, its a bit of fun but at the same time, it helps to check your understanding. Please note that if youre an expert on dinosaurs then you may not find anything new here. If however you enjoy hearing sensational and extraordinary trivia and you like looking at some great pictures then I think youll love it. Let me know what you think using the review page section. I hope you enjoy the show! Matt.
