

Ka, the time-traveling cat, has disappeared, leaving just one clue—a word on Tophers computer screen: R\*iche mou\*nt. When Topher discovers that Richemount meant Richmond in Tudor times, he fears that Ka is in terrible danger. Cats were tortured in Tudor England, so Topher must try to find her before it is too late. In doing so, he meets Queen Elizabeth and Doctor Dee, the court magician and astronomer, who thinks Ka can help him find the elusive philosophers stone. An exciting and transporting fantasy, this book explores both contemporary and ancient issues.
