

My Buddy Mr. Squash

Mr. Squash was a raggedy stray cat that wandered into the stables and life of Dr. B and his wife. According to the vet who examined Mr. Squash, he was about five years old at the time. His great personality and intelligence won over the hearts of anyone he met. Much like a trained dog, Mr. Squash would follow Dr. B around, racing across the farm when he called to play. He entertained guests by following commands to jump up, go to places where Dr. B pointed and other such tasks. Of course like his slightly eccentric master Dr. B, Mr. Squash also loved to ride around the farm on the golf cart. But most of all Mr. Squash was the best hunter Dr. B had ever seen as he relentlessly kept the mice out of the stable to the delight of the horses.
